

Investor Portal — Remaining Action Items

As of July 23, 2026 | Based on Nicole COO meeting Jul 22

Brandon — Still To Do

#	Task
1	Remove auto-populated investor/property data — clear the 14-property auto-pull (Mark’s investments) from the portal
2	Build manual entry form — fields: property name, investor name, ownership %, email address
3	Build exceptions page — flag unmatched K-1s for Nicole’s review; no clicking through each one individually
4	K-1 matching logic — notes-based fallback for edge cases (e.g., Michael Coppins → Coral Village Homes LLC; ~5 cases total)
5	Exclusion rules — skip investors with no email; exclude MT entities from distribution but include in 2025 Tax Returns download to Safe
6	Set up API key for email sending (was in progress at end of meeting)

Nicole — Still To Do

#	Task
1	Provide confirmed investor list with email addresses for all in-scope properties
2	Share the ~5-case name-mismatch cheat sheet (e.g., Michael Coppins → Coral Village Homes LLC)

Completed

Item	Who
Implement email system (bulk, individual, BCC, CC, delivery receipt, preview)	Brandon
Draft 3-line email template	Brandon
Test on Oak Hills + one additional property	Brandon
Forward/approve example email from prior K-1 distribution	Nicole
